My comments that were censored at Mondoweiss November 8, 2018
My goodbye to Mondoweiss (Nov 8 2018)
I posted less than 5 comments more than a year ago and never came back till about a month ago because the censorship was so strong. All comments are held for moderation before they are posted and too many of my comments never made it. Therefore, why should I waste my time writing comments that never make it online? I do believe that the Mondoweiss blog is great as it sheds light on the Middle East conflict but the problem is that comments like these simply vanish and what a waste of time it is to spend writing a comment that never makes it online. Therefore, my decision is not to waste any more of my time writing comments for that blog. Goodbye.
The following are my comments that were blocked at Mondoweiss. My replies are in yellow background
This outrageous scheme would have given Jews (about 90% of foreign origin comprising about thirty per cent of the population and owning just 5.6 per cent of the land)
Please tell me who the other 10% were? Were they Arabic speaking native Jews of Palestine?
as well as the equally Arab and Jewish owned lush coastal plain from the Lebanese border to a point south of Jaffa, which itself would remain Arab.
Where were those Jews from and how long had they been residing in Palestine?
While Jews made up just 31% of the population (90% were of foreign origin, thousands were illegal immigrants)
Again, I am not aware that there have been native Arabic-speaking Jews on that land going back many centuries. Where are those 10% (native Jews) of the

650,000 total Jews (65,000) in Palestine in 1947 today? What is your source?

(10% of Palestine's Jewish population consisted of native Palestinian/Arab Jews who were vehemently anti-Zionist.)

Do you have any source that 10% of the Jews in Palestine were indigenous Arab-Jews? Did they speak Arabic as a mother tongue? What is your source? Got reliable links, please?

Jews of no religion.

Why do we even have "Jews of no religion."? My translation is that these are "Israelite of no religion" which I think is totally ridiculous for any Jew – whether European, African, Asian or Arab to think of themselves as the descendants of the ancient Israelite. If anyone is, it is the Palestinians of today.

they reveal Jewish roots that are considered separately from their religion.

There are no Muslim or Christian "roots" and similarly there are no "Jewish roots". That has to be made very clear to anyone who considers himself a "Jew".

go back where you came from

Yes, I totally reject those who forced themselves in our region by force and the only way they can be removed is by force. And these people do have overwhelming force of their own + the combined force of the Powers of the West who back them. So where do we go from here? To accept them is to accept humiliation and to lose our dignity. Please remember that all the Jews whose origin is in the West can safely go back home and so can the Asian and African Jews. It will be next to impossible for the Arab Jews to return home (and they are Arabs and the Arab region is their home) because the Arab people with whom they lived as brothers for centuries no longer can trust them.
